Sociology defines a community as a group of people with a high degree of interaction and often shares a common purpose, belief, or set of behaviors.

OUR GOALS

Shared values, celebration of culture and trust provide community members with a sense of security and belonging. Pride in community is what motivates its members to unite around a cause. By working together we can leverage each other's strengths to affect positive change.

Let's work together to make our community even better!

Cultural Preservation

Inglewood has a lot of history, from its buildings to its thought leaders and trailblazers. A Cultural Preservation designation will aid in protecting the memory and continuing the legacy of these treasures within the city.

Advancement

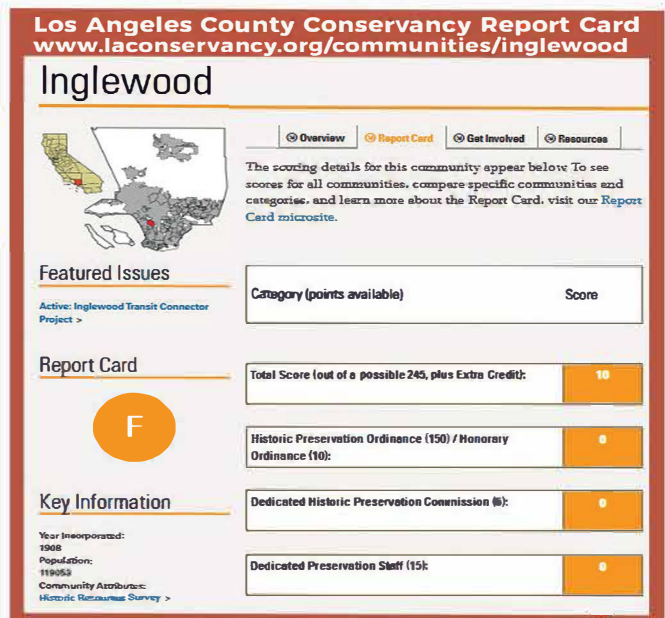

Creative economies and small businesses are important assets to every community, driving its growth and improving quality of life. Cultural/Business District Designations serve to protect local businesses and advance opportunities for creatives and entrepreneurs.

Growth

Community partnerships are vital to ensuring thoughtful development and investment in communities, but it all starts with being at the table. Well organized and progressive communities don't sit back idly while others dictate, but they have a role in the decision making and interest affecting the community they live in.

WHERE INGLEWOOD IS FAILING

CULTURE IS THE FOUNDATION OF COMMUNITY. WE CAN DO BETTER.
